**Sororities and Frats - Issue brought up to UC.**

- in 2021, sororities and frats got their support from USC revoked, currently voting on if they can regain that access.

- A GBSV course will happen in person and online that Frats and Sororities will have to do in order to regain access

- What do you guys think? **Opinions of Counsel:**

- "If they get reinstated would that affect our own budgets?"

- It will take \$0 says USC, but many fellow councilors think this doesn't make any sense.

- "I'm morally opposed to sororities and frats because they aren't the most inclusive, which is why they lost support in the first place - would vote no".

- "By uwo not even giving the greeks support is not helping their reputation in terms of their chapter"

- "They do a lot of community work".

- "Frats and Sororities do a lot of drinking and partying - which does not align with our council/faculty"

- "They don't have a space issue" - why does a charitable event need to happen on campus and not the mansions that these frats have

- **Vote: We don't support**
